HOW YOU PAY FOR COLLEGE MATTERS

Scholarships & Financial Aid Education College Success Foundation

TODAY'S PRESENTERS

Abigail Enright Program Officer, Scholarships & Financial Aid Education

Cricelia Calderon Sandoval

Program Officer, Scholarships & Financial Aid Education

Maria Rebecchi Director, Scholarships & Financial Aid Education

OBJECTIVES

By the end of this presentation, you will be able to:

- Define what are loans
- Distinguish between different types and qualities of loans
- Learn how to guide students on their personal borrowing limits
- Discover resources available to students who can't pay
- Find out what happens when students default on their loans
- Help students plan their individual safe borrowing

WHAT IS FINANCIAL AID?

Money is available to students in order to help pay for their education

Types of Financial Aid

- Scholarships
- Grants
- Loans
- Work-Study

<u>Comes from a variety of sources</u>

- Federal government
- State government
- Private sources
- Colleges and universities

STUDENT LOANS

DAILY®NEWS

Four-year students from class of 2018 have average \$29,200 in student debt, a record high

TIME Am The U.S. has a record-breaking \$1.73 trillion in student debt—borrowers from these states owe the most on average	ericans Have So Much Debt They're Taking It to The Grave
Published Thu, Sep 9 2021-1:03 PM EDT	Half of student loan borrowers worry they'll be in debt forever, study finds
There seems to be no end to the student loan debt	e rise in
Students graduating in these states are drowning in loan debt Samuel Stebbins, 24/7 Wall Street	OCBS NEWS CBS NEWS / April 30, 2019, 6:44 PM Student loan debt crisis: How did we get here?

DID YOU KNOW...?

Rising costs of education and decreasing financial aid translate into student loans playing an increasingly important role in financing higher education

Higher education is an important investment, but it is accompanied with a **growing student debt burden**, approaching \$1.7 trillion. And it keeps growing!

DID YOU KNOW...?

Almost one in three borrowers that go into repayment are delinquent on student debt

Defaulting on a loan can have catastrophic consequences that may affect borrowers' access to employment, ability to buy a car or a house, and even withhold wages and tax returns

https://studentaid.gov/manage-loans/default

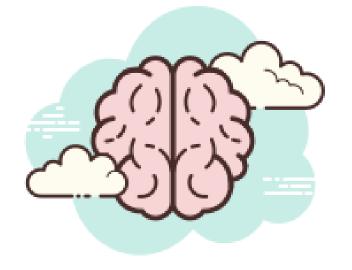

IMPORTANT QUESTIONS TO THINK ABOUT WHEN CONSIDERING BORROWING STUDENT LOANS

- If free aid (scholarships + grants) is not enough, how much is reasonable to borrow?
- How much do I have to borrow to graduate?
- How much **interest** will be added to my loans?
- What's the additional cost of not graduating on time?
- How easy it will be to find a job in my field?
- What will my entry-level wages be?
- What will my monthly student loan payment be?
- How much will I be able to afford in the end?

UNFORTUNATELY, RESEARCH SHOWS THAT MOST STUDENTS DO NOT THINK ABOUT THESE QUESTIONS

WHAT CIRCUMSTANCES PUT STUDENTS AT RISK?

- Undeclared major
- Changing majors
- 5- or 6-year educational plan
- Academically not ready
- Working too much
- Not completing your program
- Buy Now, Pay Later' mentality

LOANS ARE FINANCIAL AID!

Subsidized

Unsubsidized

Parent Plus

Private

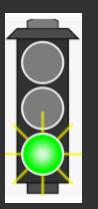

Loans come from the federal government, private and nonprofit organizations.

- Must be repaid
- Loan fees
- Interest rates
 - * Accrue interest
- Repayment options
- Some opportunities for deferment and forgiveness

	Subsidized	Unsubsidized
Who can borrow	Undergraduate students with financial need	Undergraduates; graduate students with no financial need
Interest	Paid while enrolled in at least 6 credits or during grace periods	Starts accruing with first disbursement
	3.73% (7/1/21 – 6/30/22)	3.73% (7/1/21 – 6/30/22)
Fees	1.057%	1.057%
Repayment	6 months after graduation or stopped being enrolled in at least 6 required credits	6 months after graduation or stopped being enrolled in at least 6 required credits.
Length of borrowing	Lifetime maximum amount	Lifetime maximum amount

LOANS

Good or better loans

Subsidized loans

- Need-based
- Government pays the interest while in school
- FAFSA required
- The interest rate on subsidized loans first disbursed to undergraduate students between July 1, 2022, and June 30, 2023, will be fixed at 4.99%
- Students have a 6-month grace period

LOANS

Be cautious: limit

Unsubsidized loans

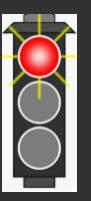

- NOT need-based
- Government does NOT pay interest, which means interest accrues immediately.
- FAFSA required
 - The interest rate on unsubsidized loans first disbursed to undergraduate students between July 1, 2022, and June 30, 2023, will be fixed at 4.99%
- Students have a 6-month grace period

Be cautious: limit or avoid loans

Parent Plus loans

- NOT need-based
- Interest accrues immediately
- FAFSA required
- Biological or adoptive parent borrows for the student's education.
- Credit-based
- The interest rate on PLUS loans first disbursed between July 1, 2022, and June 30, 2023, will be fixed at 7.54%.
- Repayment begins when the loan is fully disbursed. The first payment is 60 days after the final disbursement.

LOANS

Be cautious: Avoid loans

Private loans

- Institutional
- Bank
- May have credit
 requirements
- May require cosigner
- High and/or variable interest rate
- Limited, if any, options for deferment or forbearance
- **FAFSA required**: all private bank loans must be certified by financial aid administrator.

BORROWING LIMITS

The amount that you can borrow depends on several factors:

- Dependency Status
- Class standing
- Program
- Borrowing History
- Calculated EFC (Estimated Family Contribution)
- Unmet Need = COA EFC

BORROWING LIMITS

Loan Type	Freshman	Sophomore	Junior & Senior
Subsidized (DEP & INDEP)	\$3,500	\$4,500	\$5,500
Unsubsidized (DEP)	\$2,000	\$2,000	\$2,000
Unsubsidized (INDEP)	\$6,000	\$6,000	\$7,000

HOW MUCH CAN STUDENTS BORROW?

Let's look at a real-life example:	Cost of attendance	\$16,000	Tuition, books, housing, food, transportation
	EFC	\$ 1,000	Estimated Family Contribution
	Financial Need	\$15,000	Difference between cost for one year and family's
Cost of Attendance	Pell Grant	\$ 5,300	Free money
Estimated Family Contribution	Washington College Grant	\$ 6,600	Free money
	Work-Study	\$ 1,500	Has to be earned
Financial Need	Loans	\$ 1,600	Has to be repaid

MINIMIZE LOAN BURDEN

- Never borrow more than you need
- Budget carefully: the cost of attendance can be reduced
- Consider working more during the summer months or the school year, but do not over commit
- Work vs. Loans
 - How much work is too much? How much loans are too much?
 - More than 15 hours per week is not recommended for full-time students
- Private loans and credit card debt are the most expensive, risky ways to borrow for college!

HOW TO CALCULATE HOW MUCH A STUDENT CAN AFFORD?

- Know in advance when they will enter repayment
- Consider future career, likely income, and monthly repayment amount
- Consider the impact on post-college finances, including purchasing a car or a home, starting a family, career choices and saving for retirement
- Know about temporary reducing or eliminating monthly repayment amounts:
 - Income-based repayment available for federal loans
 - > Forgiveness for public service and other careers (uncertain about the future of forgiveness)
- **Tool**: The student loan repayment calculator at:

https://mappingyourfuture.org/paying/standardcalculator.cfm

WHAT IF THE STUDENT CAN'T PAY?

Deferment

- A period during which payments are not required
- Deferment request are granted for periods of up to 3 years
- Examples include graduate school, Peace Corps, or other public service, active military duty, unemployment, and economic hardship

Forbearance

- If borrower does not qualify for deferment but still needs relief, can appeal to lender or servicer for forbearance
- Can reduce or postpone payments or extend the time for making payments
- Forbearance requests typically are granted for periods of up to 12 months

WHAT IF THE STUDENT DOESN'T PAY?

- Student loans must be repaid whether or not the student finishes his/her program of study
- Student loans are rarely dischargeable in bankruptcy
- Default happens after 9 months of non-payment
 - > Default ruins credit score
 - > Wages and even Social Security may be garnished
 - > Tax refunds may be seized
 - > Eligibility for other aid programs may be lost
 - > Academic transcripts may be withheld
 - > Federal government can file a lawsuit against the defaulter
 - > Eligibility for certain state and federal jobs may be denied; professional licenses lost

Communication with loan holder is key and may prevent default through alternative repayment arrangements

BORROWING PLANNING

These are good tools for your students to practice looking at careers and future earnings to get a sense of how much to borrow:

- 1. Look up jobs and their earnings: http://www.bls.gov/ooh/a-z-index.htm
- 2. Calculate how much you plan to borrow: http://mappingyourfuture.org/paying/debtwizard/
- 3. Calculate your monthly payment: https://studentaid.gov/loan-simulator/
- **4. Look at specific school information:** <u>https://collegescorecard.ed.gov/</u>
